

# Script Library Documentation - libLinedFields

**Version 1.1**

## Contributing Authors

Monte Goulding

## Library Purpose and General Documetation

Gives a field alternate colored lines (white and grey) that scroll properly.

Just start using the library and set the uLinedField of a field to true.

For best results use a fixed line height of 16 and margins of 8.

## Functions and Handlers

**scrollbarDrag (handler)**
